

ATTACHMENT 2

SMALL ARMS REJECT CODES
See chapter 10, paragraph A7c

Reject Codes	Error Narrative
1A	NSN is not present in valid SASP NSN file.
2A	DIC must be DSA, DSB, DSF, DSM or DSR.
2B	Serial number cannot contain blank positions or special characters (e.g., \$, @, etc.)
2C.1	Transaction code is invalid. Valid codes are B, F, K, L, N, Q, R, S, U, V, 7 .
2C.2	This transaction code is not permissible with this DIC.
2D	NSN cannot contain: <ul style="list-style-type: none"> (1) Blank positions (2) Special characters (3) Local sales or lot (i.e., LSN) identification.
2F	Date in document number cannot be greater than the processing cycle date.
2G	Document number: <ul style="list-style-type: none"> (1) Contains blank positions or invalid characters. (2) Date in document number exceeds cycle date.
2G.1	Document number cannot contain blank positions or special characters.
2G.2	Document number in DEMIL (Transaction Code V) does not match document number for this serial number/NSN on the small arms master file.
2G.3	For foreign military sales (Transaction Code F), shipment to other agencies (Transaction Code M) and shipment notices to other agencies (Transaction Code S), the requisition number must not contain the document number of the weapon on the small arms master file.

ATTACHMENT 2 (Continued)

Reject Codes	Error Narrative
2G.4	Document number in the R transaction does not match the DTID posted from the S transaction. R transaction DTID posted to small arms master file. Advice notice sent to losing activity.
2G.5	Document number in transaction does not match requisition posted on the master file.
2G.6	An attempt has been made to correct DTID on master file; the old DTID in the transaction does not match DTID on master file.
2G.7	An attempt has been made to correct the requisition number posted on the master file for a weapon; the transaction requisition number does not match the master file requisition number.
2J	DoDAAC is in error: <ul style="list-style-type: none">(1) DoDAAC contains blank positions or invalid characters.(2) Shipment to non-DoD activity contains DoD gaining DoDAAC.(3) Transaction does not contain DLA gaining or losing DoDAAC.(4) Required DoDAAC is missing.
2J.1	DoDAAC cannot contain blank positions or special characters.
2J.2	Both gaining and losing DoDAAC are required for transactions with Transaction Codes F, N, R and S .
2J.3	Shipment to other agencies must contain a DLA losing DoDAAC.
2J.4	Shipment to other DoD agencies must contain a DLA losing DoDAAC.
2J.5	Transaction must contain DLA activity DoDAAC in either the gaining or losing DoDAAC.
2L	Transaction date must be numeric.
2M	Transaction date cannot exceed cycle date.
2O	DoDAAC error:

ATTACHMENT 2 (Continued)

Reject Codes	Error Narrative
	(1) Cannot have same gaining/losing DoDAAC. (2) Shipment to non-DoD activities cannot have DoD gaining DoDAAC. (3) Transaction must contain valid DLA DoDAAC.
20.1	Transaction Codes F, N, R and S cannot contain the same DoDAAC in gaining and losing DoDAAC.
20.2	Shipments to other agencies (Transaction Codes F and N) cannot contain a DoD gaining DoDAAC.
20.3	R transactions must contain a DLA DoDAAC in gaining and/or losing DoDAAC (the same activity DoDAAC cannot be present in both gaining and losing DoDAAC).
20.4	Initial registrations (Transaction Code B) must contain a DLA activity DoDAAC in the gaining DoDAAC.
20.5	First position of DoDAAC indicates a DLA activity (e.g., S: in first position of DoDAAC), but DoDAAC is not a valid DLA activity DoDAAC.
20.6	DoDAAC contain a non-DoD activity. This condition is only valid in the gaining DoDAAC of shipments to non-DoD agencies (Transaction Codes F and N).
20.7	Transactions with this transaction code must contain a valid DLA DoDAAC in the losing DoDAAC.
3F	Transaction predates a transaction that has been used to update the Small Arms Master File for this weapon. Unable to process this transaction.
3G	A Small Arms Master Record does not exist for this serial number and national stock number.
3G.2	Program expected requisition TID, found TID of active item.
3G.3	Program failed to delete previous serial number/NSN control elements; submit condition to DRMS-CB before resubmitting transaction.
3H	A Small Arms Master Record is already present for this serial number and national stock number.

ATTACHMENT 2 (Continued)

Reject Codes	Error Narrative
3H.1	A Small Arms Master Record is already present for this serial number and NSN. TID may or may not equal. Advice only.
3H.2	Multichange DSA is attempting to alter serial number/NSN elements to a combination that already exists for an active record in the DLA Small Arms Inventory.
3H.3	A Small Arms Master Record is already present for this serial number and NSN. DoDAACs (gaining and/or losing) are not the same as posted on inventory. Transaction did not process.
3H.4	Pending gain transaction has encountered an active weapon with the same serial number and NSN. Transaction rejected.
3I	DoDAAC does not match: (1) DoDAAC in receipt does not match gaining DoDAAC in shipment notification. (2) Transaction does not contain the same losing DoDAAC as the Small Arms Master Record.
3I.1	The R transaction does not contain the same losing DoDAAC as the S transaction for this weapon.
3I.2	The losing DoDAAC in F or N loss does not contain the DoDAAC of the DLA activity currently holding the weapon for this serial number and NSN.
3I.3	An S transaction to another DLA activity or to another DoD activity must contain the losing DoDAAC of the DLA activity currently holding the weapon for this serial number and NSN.
3I.4	Gaining DoDAAC in R transaction does not match gaining DoDAAC shown in S transaction.
3I.5	An R transaction reflecting a gain from another DLA activity must contain the same losing DoDAAC and TID (requisition number) as the S transaction.
3J	A Small Arms Master Record does not exist for this serial number and

national stock number.

3K A receipt transaction has been received, but no shipment suspense Transaction Code **S**) has been received. The receipt has been used to update the Small Arms Master File. This is a reject advice notification, not a rejected transaction.

ATTACHMENT 2 (Continued)

Reject Codes	Error Narrative
3L	The combination of transactions for this weapon has created a condition that does not identify the required update action.
3L.A	Use a DSA transaction to correct an owning DoDAAC.
3L.B	Weapon has been demilitarized; this is not a proper sequence of transactions to reverse a previously demilitarized weapon.
3L.C	Box number change for an inactive weapon is an invalid condition.
3L.D	An R transaction from other than the owning DLA activity is attempting to process as a loss and the Master Inventory indicates a PD (pending shipment).
3L.1	R transaction attempted to post against weapon shown to be DLA accountable and without any impending intransit action.
3L.2	Transaction indicates an action that is contrary or illogical for the current status of this weapon. See inventory listing for clarification.
3L.3	A C transaction is illogical for an active or demilitarized weapon.
3L.4	Action is against inactive record and appears to be contrary to requirements. Contact <i>DRMS-CCI (DSN) 932-7304</i> for assistance.
3L.5	A D transaction contains DoDAACs that indicate a reversal of an S transaction <i>to</i> a DLA activity; the weapon's status did not indicate that this action was pending.
3L.6	A D transaction contains DoDAACs that indicate a reversal of an S transaction <i>from</i> a DLA activity; the weapon's status did not indicate that this action was pending.
3L.7	The previous action to be reversed could not be determined; contact <i>DRMS-CCI (DSN) 932-7304</i> for assistance.
3L.8	Status for this weapon is contrary for processing a Q transaction. Contact

DRMS-CCI (DSN) 932-7304 for assistance.

3L.9 A **U** transaction attempted to process for a weapon when a **Q** transaction was not previously received.

ATTACHMENT 2 (Continued)

Reject Codes	Error Narrative
3M.0	Only one transaction can be submitted for the same serial number, national stock number, transaction date and transaction code. The first transaction is processed, and subsequent duplicate record(s) rejected. This applies to transactions processed in the same cycle only.
3M.1	Transaction code and DoDAACs indicate that this action is already pending on the Master File.
3U	A Small Arms Master Record is already present for this serial number and national stock number. The weapon is held by a DLA activity other than the activity that is attempting to establish the new Small Arms Master Record.
3U.1	An S transaction contains a serial number/NSN that already exists on the Master Inventory as a pending gain as the result of a previously processed S transaction.
4A	Record position 26 must be a 1 or 2 .
4B	Record position 25 on a 5 interrogation must be an S .
4C	Record position 26 on a 6 interrogation must be an A .
4D	Record position 26 on a BX interrogation must be an A .
4E	Record position 26 must be A, I, M or X .
