## DRMS Strategic Direction

DRMS will provide consistent, efficient and effective business practices and high quality service resulting in outstanding mission execution and optimum financial performance to DoD (and ultimately the taxpayer). We will emphasize our role as a valuable source of supply for the military services. We will provide protection to the public against improper disposal of both hazardous and militarily dangerous property. We will transition the business to a lean, "virtual" enterprise - becoming managers of information, not property, skilled with the knowledge workers DoD needs for the future. For all our services, we will solidify our position as DoD's provider of choice for services within our mission responsibilities.
